Memo No. 2018-021
Date: 28-May-2018
Memo To: Clients
Re: **Important Notice: Broad Spectrum Drug Screen Revision**

The Hospital for Sick Children (SickKids), Toronto, is completing a multi-year project to implement a fully integrated health information system using software from the company Epic, an industry leader in electronic health record software.

ICL has been informed that as of June 2nd, 2018, the toxicology laboratory will be changing the reporting format for Broad Spectrum Drug Screen (blood or urine). The report will include the attached list of drugs resulted as either “Detected” or “Not-Detected”. Non-listed drugs that are detected, and any target drugs specified with the order, will be reported under “Additional Drugs/Comments”.

Specimens received by ICL as of Monday June 4th will be reported in the new format.

(ICL Memo 2018-009 dated Feb 20th, 2018 informed clients that the Broad Spectrum Urine Drug Screen reporting would be revised on Apr 2nd, 2018. Due to unforeseen circumstances the revision was delayed pending the SickKids Epic implementation.)

If you have further questions please contact Client Care at (416) 422-3000 Ext. 300 or info@ICLabs.ca or you may contact me directly.

Shashank Tilak PhD, DCC
Laboratory & Scientific Director
