

Memo No. 2020-032
Date: 24-Apr-2020
Memo To: Clients
Re: *Temporary Test Interruptions*

ICL is open, operating and continues providing services

The following tests are temporarily indefinitely unavailable. The reagent scarcities and staffing issues that are the cause of this interruption may be attributed to the current COVID-19 pandemic. Affected tests have been flagged in the ICL website Test Catalogue as "Service Interrupted".

- Specimens previously submitted to ICL will be held pending test availability. If any are deemed urgent, please contact us.
- If specimen stability becomes an issue you will be contacted.
- ICL will hold new orders and specimens received will be held pending test availability. However, we recommend that the specimens and orders should not be submitted until you are advised that service is resuming.

These tests have been added to the cumulative list of interrupted services in memo "COVID19-Cumulative-24Apr2020"

[Activated Protein C Resistance \(APCR\), Plasma](#)

[Alpha-Fetoprotein, Fluid](#)

[Beta-2-Microglobulin, Fluid](#)

[CA 125, Fluid](#)

[CA 19-9, Fluid](#)

[Carcinoembryonic Antigen \(CEA\), Fluid](#)

[Cardiolipin Antibodies IgG + IgM, Serum](#)

[L-Lactic Acid, Fluid](#)

[Prothrombin Mutation, Blood](#)

[Von Willebrand Factor Antigen, Plasma](#)
