

Memo No. 2022-044
Date: 28-Oct-2022
Memo To: Clients
Re: *Various*

C-Telopeptide, Plasma service at Mount Sinai Hospital, Toronto is temporarily unavailable for unknown duration due to technical issues.

In the meantime, specimens on hand and future orders will be referred to an alternate testing lab (St. Michael's Hospital, Toronto) that also uses a Roche analyzer and similar methodology. Please note that the reference values are changed. There is no change in specimen requirements, handling instructions or test price.

St. Michael's Hospital test: [*C-Telopeptide, Serum/Plasma*](#)

[*Cholinesterase - Total Activity, Serum*](#) and [*Cholinesterase Phenotype, Serum*](#) analyses at Laboratory Reference Centre in Hamilton are delayed. Resumption of service is anticipated in the next 1-2 weeks. ICL is trying to find an alternate interim service.

Prostatic Acid Phosphatase, Serum

Based on testing lab protocols, [*Prostatic Acid Phosphatase, Serum*](#) at Quest Diagnostics is restricted to specimens from males.

The [*Prostatic Acid Phosphatase, Serum*](#) service at Mayo Clinic Laboratories is available for male and female samples. Please specify test ID **PACP** to order this test.

Please refer the online Test Catalogue for detail.
