Cholinesterase testing is available as

- Phenotyping Plus Total Activity: [Cholinesterase Phenotype, Serum](#) (Test ID: CHEP)
- Total Activity Only: [Cholinesterase - Total, Serum](#) (Test ID: CHE)

Please unambiguously identify which Cholinesterase test is required. This practice is aligned with accreditation requirements. This is best done by providing the complete test name and/or as “ICL Test ID XXXX”.

Please note that there will be a delay in processing orders that do not unambiguously distinguish between these two tests while ICL contacts you to determine which test is required.
