

Memo no.: 2023-057
Date: 12-Dec-2023
Memo to: Clients
Re: Pyruvate, VIP

[Pyruvate, Blood](#) and [Pyruvate, CSF](#) are available. Because this test is available for whole blood or CSF, and because both specimen types must be acid-precipitated and submitted as supernatant aliquots, it is very important that you identify on the requisition the original specimen type processed.

[Vasoactive Intestinal Polypeptide \(VIP\), Plasma](#) is temporarily delayed due to a reagent supply issue. There is no alternative service available at the moment. The performing laboratory will hold the samples at optimal temperature during the service interruption. Expected resolution date for the service is January 10, 2024.

If you have further questions, please contact Client Care at 416-422-3000 ext. 300 or info@iclabs.ca
