

INTEGRATIVE LABORATORY SERVICES

April 1st, 2020

Based on manufacturer recommendations, SIBO breath testing services will be suspended effective immediately until further notice due to the COVID-19 pandemic and the potential risk of respiratory cross-contamination during this testing.

Please inform your patients to not collect or submit specimens at this time. If patients' kits expire prior to resumption of testing please return to ICL and a new kit will be supplied free of charge.

Please note that any specimens already collected and submitted will not be tested at this time. A replacement kit will be supplied free of charge for the patient to repeat the testing post COVID.

We thank you for your understanding during this time and look forward to resuming this service in the future.

Please let us know if you have any questions.

- **The ILS Team**
