Memo to: Clients
Re: New Test Listing – pTau217 by ECLIA

A new test has been added to ICL's online catalogue.
Phosphorylated plasma tau 217 testing is now available at two different test sites using different methods:

[pTau217 by SiMoa, Plasma](#) (ICL Test ID: **PTAU217 P**)

[pTau217 by ECLIA, Plasma](#) (ICL Test ID: **ALZP P**)

Please refer to the online catalogue for test details, including HL7 interface codes.

Non-interfaced clients should note that to select the correct test service and prevent delays in processing, their order/requisition must specify which test they are ordering, preferably by including "ICL Test ID: XXXXX" as appropriate.

If you have further questions, please contact Client Care at 416-422-3000 ext. 300 or info@iclabs.ca
